Work Experience

Universal Music Group — **Manhattan, NY**
Tech Support Intern — *June 2026 – August 2026*
- Built a ServiceNow AI ticket-triage tool as a final project, along with AI tools for root-cause summaries and cybersecurity support using Glean, Vertex AI, Gemini, and Codex coding assistance.
- Managed ServiceNow incidents from intake through resolution, coordinated escalations, documented fixes, and supported Active Directory access, laptop deployment, and asset tracking.
- Provided desk-side, phone, and remote support for Windows and macOS users, troubleshooting hardware, Microsoft 365, account access, VPN, and network issues.

Fox News — **Manhattan, NY**
Help Desk Intern — *September 2025 – November 2025*
- Imaged, configured, and deployed 20+ Windows and macOS laptops daily, including Microsoft 365, CrowdStrike, MFA, and user-specific software.
- Resolved Level 1–2 ServiceNow incidents involving hardware, software, account access, VPN, and network connectivity.
- Supported live broadcasts, executive events, and conference rooms through desk-side and remote troubleshooting of audiovisual and collaboration systems.

Tempco Glass Fabrication LLC — **Flushing, NY**
IT Intern — *June 2025 – August 2025*
- Developed and tested automated defect-reporting workflows using Power Automate, Power Apps, and SharePoint, streamlining report processing and email notifications.
- Developed an Azure OpenAI chatbot using SQL retrieval for glass pricing and inventory questions; refined prompts and retrieval through testing.
- Updated internal applications with Power Apps, JavaScript, HTML, and CSS, and redesigned website pages using Squarespace AI.
